### Alfalfa.

(By Sam Jordan)

If there are those who want alfalfa seed this fall and have not spoken to me about it, I would suggest that you advise me at once if you care to have me to look after the matter for you. By putting orders early we can no doubt save some money on the price of seed. This order will have to go very early in July. Seed will be secured only to the extent of the orders given.

I have more than half of the farm subscribers in the county and am making the best time I possibly can to reach the others. If there are those, however, who are very anxious to have me visit their places before I can reach them on the regular schedule, if you will kindly advise me I will make every possible effort to reach you in the shortest time possible. I would like to say further that my office days will be every Monday and each forenoon on Saturday. I am reserving the afternoons of Saturdays for meetings that may be held on Saturday afternoons at various points thru-out the county.

I am just advised that the Interstate Cereal Conference held at Kansas City concluded that Missouri was going to be one of the best sources for securing seed wheat. This wheat will need to be fairly pure and of good quality. High class wheat is said to bring a good price and I would be glad for all the members who have good wheat to report the matter to me that I may make a record of all the high class crops. I will write further about it next week.

Very truly,

Mr. Sam Jordan will deliver his famous lecture "Mother Earth" in this city Sunday evening July 8. This lecture will take the place of the one to have been delivered by Rev. Gill and there will be no services in any of the churches on the occasion.

The band gave a concert at the Price Park last night and was greeted with a good crowd. There was considerable surprise manifested at the improvement in so short time, but Babe Rucker should be remembered as being the director.

The rain Tuesday and Wednesday nights did wonderful things for crops, especially potatoes. Corn appears to be growing at the rate of an inch an hour and potatoes will "come out" surprisingly. Harvest will be on next week, and a finer crop of oats never showed up in the county. Barley and rye are splendid and wheat of the best quality.

J. A. Schwalje, our premier baker and the best in the state, got gay with his flivver last Friday and the skiddoo unloaded him twice on the road to and from Dalton. Fords are like mules if they cannot get you off any other way will roll over with you. The car was damaged slightly but the bread and pie artist escaped with a muddy suit and small expense for repairs.

### Lightning Struck

During the storm here Tuesday night the residence of C. P. Thrash was struck and Mr. Thrash, who was attempting to let a window down, was shocked considerably by the bolt which tore off a corner of the house, traversed a gutter and unsundered a down pipe.

Semi-occasionally electricity takes a fancy to stirring up a rumpus on Mr. Thrash premises and he is forming the opinion that there is some reason for it. If there is valuable mineral in the hill or gas or oil, he would like to have it disclosed without being knocked down.

Wouldn't you like to see "how the land lays" that will produce wheat and alfalfa, oranges and lemons, raisins and rice, hops and walnuts, almonds and peaches, figs and prunes? Wouldn't it seem peculiar to see oranges ripening while you were doing your winter plowing, or a strawberry patch yielding fruit eleven months out of the year.

### Sour Stomach

This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you will eat slowly, masticate your food thoroughly, eat but little meat and none at all for supper, you will more than likely avoid the sour stomach without taking any medicine whatever. When you have sour stomach take one of Chamberlain's Tablets to aid digestion.
